

Last minute information for XX ISIAC participants

Name tags

Please carry your name tags on the Mirabello hotel premises and show them when needed to get the special reduced prices. Accompanying persons must be with a full participant.

Lunch

All participants can eat at the Mirabello premises (see below).

There is also a small supermarket right across the Mirabello hotel where you can get sandwiches and other small things for a just few euros.

Dinner

All participants can eat at the Mirabello premises (see below). The price of dinner is included for those staying at the Mirabello. For other ISIAC participants the dinner buffet will cost about 30euros. However, there are also plenty of nice restaurants (all categories), cafes, pizzerias etc. all around the lagoon area in the center of Agios Nikolaos about 1.5km from the hotels. You can either walk along the picturesque sea shore road (recommended) or catch the public bus or order a taxi.

Gala dinner

As already announced there will be 3 main choices for the gala dinner: a) lamb, b) fresh fish, c) vegetarian (stuffed green/tomatoes) all Greek specialties. You need to specify these choices upon registration. Otherwise the default choice will apply which will be lamb.

Swimming

Swimming either at the pools or beach on the Mirabello premises is open to all participants. Shower and changing facilities are available. Just bring your bathing suit and towel. **Remember it is always safest to swim before eating!**

Talk pdfs to be placed on the web

ISIAC traditional does not produce any official written proceedings. We would therefore like to place the individual talks on the conference webpage. All speakers are kindly requested to give the electronic version of their talk to Mr. Manolis Benis towards this purpose.

Airport bus transport

Two buses will be available for the free and convenient transport of participants on **Wednesday August 1**. Bus A will be at the arrivals terminal at 18:00 and will tentatively depart at 18:30, while bus B will arrive at 20:00 and depart at 20:30. In case of flight delays decisions for delayed bus departure will have to be made. As a general rule we expect the bus to wait no more than 30-45 minutes for late flight arrivals. Final decision on this will be left to tour leaders: Ms. Christina Dimopoulou (bus A) and Mr. Manolis Benis (bus B). Suggested tentative lists of passengers will be posted on the homepage of the conference. Listed passengers may elect to take the suggested bus or not as they wish.

One return transfer bus will possibly be arranged by the secretariat - therefore please don't forget to give your departure times – taxi match ups will also be considered by small groups of participants leaving around the same time.

Special discussion of future possible ISIAC-e,2e merger

Concerns for the viability of future meetings will be discussed together with new proposals for a merger of the two communities (Michael Schulz). This last minute possibility will necessarily have to be held at 21:00 on the eve of Thursday Aug. 2, in the conference room. All concerned parties are invited to participate in the discussion. Michael Schulz's proposal can be found at the link: http://isiac-2007.physics.uoc.gr/Schulz_proposal.pdf on the homepage of the conference.
